Your first visit

We'll talk about your concerns and make a plan together.

This care plan will help you reduce or stop your drug or alcohol use – making sure you receive the right support at the right time for you.

Help and advice for family, friends and carers on how best to support you during your recovery is also available.

How we help

At our service, you can get:

- Advice about your health and wellbeing
- Regular sessions with your personal keyworker
- A range of different support groups

Together, we can also look ahead to what's next for you.

This could be motivational programmes, education, training and employment support, peer mentoring and volunteering.

Evening appointments, online groups, and telephone or video sessions are also available to fit around your other commitments.

Talk to us about what works for you.
